Calibration Price List

Instrument(s) listed will be in compliances with stated requirements and meet all specification for the designated instrument(s). All Measurement & Test Equipment used in calibration/certification have documented traceability to the National Institute of Standards and Technology (NIST) or Recognized Industry Standards. When defined by Company Procedure(s), As Found and/or As Left adjustments are listed. Items which do not meet standard(s) and/or specifications stated shall be noted and shall be dispositioned in accordance applicable company procedures and/or noted for customer final approval.

Calibration is performed in accordance with guideline established in ISO17025.

Expedited services are available for an additional charge. (Call for details)

Customer is responsible for notifying us of specific calibration/certification intervals and specification. Please refer to our Requirements Form available online. **A \$5.00 Cert. fee will be charged for extra data requirements.**
